**DESCRIPTION:**

The proposal is to renovate and expand the size of a bulkhead within the required left side yard setback. The Applicant is also proposing an as-of-right rear single story addition and rear deck.

**FINDINGS FOR SPECIAL PERMIT (SZO §4.4.1):**

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

1. **Information Supplied:**

The Board finds that the information provided by the Applicant conforms to the requirements of §5.1.2 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.

2. **Compliance with Standards:** *The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."*

The structure is currently nonconforming with respect to lot area, frontage, and the minimum requirement for a left side yard setback of 8 feet. The current left side yard setback is 2.1 feet and will remain as such. This alteration to a nonconforming structure requires the Applicant to obtain a special permit under §4.4.1 of the Somerville Zoning Ordinance (SZO).

Section 4.4.1 states that "[l]awfully existing one-and two-family dwellings which are only used as residences, which are nonconforming with respect to dimensional requirements, may be enlarged, extended, renovated or altered by special permit granted by the SPGA in accordance with the procedures of Article 5." In considering a special permit under §4.4 of the SZO, Staff finds that the alterations proposed would not be substantially more detrimental to the neighborhood than the existing structure. The proposed alteration to enlarge the bulkhead will allow better access into and out of the basement for the home owners.

Pursuant to §8.6.6, decks may project into a required side yard not more than one-quarter of the required setback. The required setback is 7 feet (reduction for narrow lots) and a quarter of that is 5.25 feet. The proposed rear deck shall be 5.25 feet from the right property line so that the structure will remain conforming in regards to the minimum required right side yard setback.

3. **Consistency with Purposes:** *The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."*

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to promote the health, safety, and welfare of the inhabitants of the City of Somerville; to provide for and maintain the uniquely integrated structure of uses in the City; to protect health; to secure safety from fire, panic and other dangers; to provide adequate light and air; and to preserve and increase the amenities of the municipality.

The proposal is consistent with the purpose of the RA district, which is, "To establish and preserve quiet neighborhoods of one- and two-family homes, free from other uses except those which are both compatible with and convenient to the residents of such districts."

4. Site and Area Compatibility: *The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."*

*Surrounding Neighborhood:* The surrounding neighborhood is comprised of one-, two-, and three-family dwellings.

*Impacts of Proposal (Design and Compatibility):* The design of the expanded bulkhead has been designed in a manner where the structure will not encroach any further into the required setback.

6. Housing Impact: *Will not create adverse impacts on the stock of existing affordable housing.*

7. SomerVision Plan: *Complies with the applicable goals, policies and actions of the SomerVision plan, including the following, as appropriate: Preserve and enhance the character of Somerville's neighborhoods, transform key opportunity areas, preserve and expand an integrated, balanced mix of safe, affordable and environmentally sound rental and homeownership units for households of all sizes and types from diverse social and economic groups; and, make Somerville a regional employment center with a mix of diverse and high-quality jobs. The areas in the SomerVision map that are designated as enhance and transform should most significantly contribute towards the SomerVision goals that are outlined in the table below. The areas marked as conserve are not expected to greatly increase the figures in the table since these areas are not intended for large scale change.*

The character of the neighborhood will be preserved.

**DECISION:**
